My Self-Isolation Checklist

You must not leave your home if you're self-isolating. Isolating is hard but is vital to stop spreading the virus.

When to self-Isolate

- ✓ you have any <u>symptoms of coronavirus</u> (a high temperature, a new, continuous cough or a loss or change to your sense of smell or taste)
- √ you've tested positive for coronavirus this means you have coronavirus
- ✓ You and anyone you live with must stay at home (self-isolate) until you get your result.
- ✓ you live with someone who has symptoms or tested positive
- ✓ someone in your support bubble has symptoms or tested positive
- √ you're told to self-isolate by NHS Test and Trace
- ✓ you arrive in the UK from a country with a high coronavirus risk – see GOV.UK: how to self-isolate when you travel to the UK

How long to self-isolate

✓ For at least 10 days if:

you have symptoms of coronavirus and you tested positive, had an unclear result or did not have a test.

You tested positive but have not had symptoms If you have symptoms, the 10 days starts from when they started.

✓ For 14 days if:

you live with (or are in a support bubble with) someone who has symptoms of coronavirus and tested positive, had an unclear result or did not have a test or tested positive but has not had symptoms

You've been told to self-isolate by NHS Test and Trace

It is really important to keep to the <u>self-isolation periods</u>
